1

Development of Residential Archetypes
to Predict Indoor Temperatures of
Vulnerable Homes

Uddin, Meftah

2

Phase Change Material Integration in
Building Energy Simulation Using
OpenStudio Measures and Python
Library

Ying, Albert

3

Evaluating the Impact of Indoor
Hydroponic Systems on Students'
Well-being in High School Classrooms

Davari, Malihe

4

Towards Open-Source Simulation
Models for Flexible and Self-Sufficient
Energy Hubs

Sui, Jiyuan

5

A Comprehensive Review of
Meta-Learning Applications in Building
Domain

Flores Garcia, Juan Diego

6

Co-design Optimal Sizing and Control
Framework to Balance Cost and
Resilience

McDowell, Timothy

7

Adding Timeseries Acceptance Criteria
to ASHRAE Standard 140

Macy, Luke

8

Digital Twins for Building Energy
Modeling: Balancing Level of Detail,
Data Resolution, and Model Accuracy

El Kontar, Rawad

9

AI-Based Metric for Building and Grid
Reliability Assessment via Input
Propagation and Stress Testing

Dabbagh, Mohammad

10

Integration and Implementation
Verification of Air-to-Water Heat Pump
Models for California's Title 24
Compliance Software

Abdalla, Ahmed Saber

11

Efficient Residential Energy Model
Calibration for Field Audits: Targeted
Parameter Optimization Using
OpenStudio and GenOpt

Yousefi, Fatemeh

12

Developing a New Set of Prototypical
Models for Office Buildings in California

Salehi, Parisa

13

Year-by-Year Dynamic Building Energy
Assessment with Future Climate
Projections Capturing Extremes and
Fluctuations

Rempel, Alexandra

14

Sun and Stone in the Windy City: New
Estimates of Direct Solar Heating
Potential in Greater Chicago

Hadadzadegan, Hani

15

From Pilot to Practice: Turning
Whole-Building Carbon Accounting into
Real-World Design Decisions

Vidwans, Suyash

16

High Performance Building as
Resilience Hub: Designing for Passive
Survivability and Energy Resilience

Zhang, Margaret

17

An Environmental Framework For
Optimizing Urban Design Parameters of
New Districts

Liu, Yingjie

18

Material-Aware Urban Energy Modeling
from Street-View Façade Recognition
